

Caleb A. Aldridge

Research Assistant – Wildlife, Fisheries and Aquaculture – Mississippi State University

1209 7th Street North – Columbus, Mississippi 39701

☎ 205 495 6483 ✉ caa134@msstate.edu 🌐 aldrigecaleb.github.io

BIO BRIEF

Caleb was born and raised in rural northwest Alabama. Some of his earliest memories are of exploring the local streams, like the Sipsey River, with his parents, flipping rocks in search of crayfishes and salamanders. These early experiences set him on a career path in aquatic ecology and conservation. Caleb has participated in a variety of projects that include: responses of streamside salamander assemblages to forest road-effects; investigation on the life history of southern brook lamprey; optimizing sample sites to draw mechanistic inferences while accounting for cost; and improving a rapid survey protocol for the invasive Mediterranean gecko (e.g., how many replicates are needed to confirm presence or absence?). He is currently developing a planning support tool that helps fisheries biologists formulate lake management plans in a structured decision making framework. Caleb is also passionate about mentoring budding ecologists, and has served as a resource and mentor to a half-dozen undergraduate students. When not engaged in research pursuits, he enjoys sipping coffee, taking in the outdoors, and experiencing Southern music.

EDUCATION

Degree-seeking

Ph.D. Forest Resources—Wildlife, Fisheries and Aquaculture

Current

Dept. of Wildlife, Fisheries and Aquaculture, Mississippi State University

Dissertation title: *Planning Support for Reservoir Fisheries*

Committee: Leandro E. (Steve) Miranda (Co-Adviser), Michael E. Colvin (Co-Adviser), Scott A. Rush, and Anna C. Linhoss

Selected coursework: Decision Support Systems, Conservation and Natural Resource Decision Making, Estimation of Wildlife Populations (Directed Study with Dana Morin), Management of Impounded Rivers

M.S. Biological Sciences

2017

Dept. of Biology, University of Mississippi

Thesis title: *The Effect of Road Crossings on Stream-associated Salamanders within Holly Springs National Forest*

Committee: Stephen T. Threlkeld (Co-Adviser), William J. Resetarits Jr. (Co-Adviser), Marjorie M. Holland, and Rebecca E. Symula

Selected coursework: Biometry, Experimental Design, Wetlands Ecology, Herpetology, Multivariate Analysis of Ecological Data

B.S. General Biology 2012
Dept. of Biology, University of North Alabama
Adviser: Glenn A. Marvin
Selected coursework: Elementary Statistics, Aquatic Ecology, Entomology, Comparative Vertebrate Morphology, Plant Physiology

Certificates

Preparing Future Faculty Certificate 2020
Center for Teaching and Learning (CTL), Mississippi State University
Best Practices in Online Instruction Certificate 2018
Center for Teaching and Learning (CTL), Mississippi State University

RESEARCH EXPERIENCE

Graduate Research (Dissertation) 2018-Current
*Mississippi Cooperative Fish and Wildlife Research Unit and
Fishery Management and Aquatic Conservation Lab,
Dept. of Wildlife, Fisheries and Aquaculture, Mississippi State University*
Supervisors: Michael E. Colvin and Leandro E. (Steve) Miranda
Review of management procedures of US state inland fisheries agencies and development of a prototype framework (procedures plus data tools) for adaptive management of Mississippi inland fisheries. Will include examination of long-term monitoring data (observational study) in estimates of fisheries parameters in response to management actions.

Research Assistant 2018-Current
*Mississippi Cooperative Fish and Wildlife Research Unit and
Fishery Management and Aquatic Conservation Lab,
Dept. of Wildlife, Fisheries and Aquaculture, Mississippi State University*
Supervisors: Michael E. Colvin and Leandro E. (Steve) Miranda
Review of manuscripts and other scholarly works; perform statistical and numerical analysis; design experiments and sampling schemes; and conduct field and laboratory sampling.

Research Associate 2016-2018
*Research and Education to Advance Conservation and Habitats (REACH),
Dept. of Wildlife, Fisheries and Aquaculture, Mississippi State University*
Supervisor: Beth H. Baker
Investigation (field experiment) on the effects winter cover crops on soil properties and edge-of-field runoff.

Graduate Research (Thesis) 2015-2017
Dept. of Biology, University of Mississippi
Supervisors: Stephen T. Threlkeld and William J. Resetarits
Investigation (quasi-experimental) on how road-crossings affected stream-associated salamander counts and richness in comparison to road-free streams.

Field Technician

2014

*Dept. of Biological and Envir. Sciences, Alabama A&M University*Supervisor: Dawn Lemke

Sampling of water quality parameters in the investigation (quasi-experimental) of responses to differing prescribed fire applications.

Wildlife Biologist Intern

2013

*Freedom Hills Wildlife Management Area, Alabama Department of Conservation and Nat. Resources*Supervisor: Mitchell Marks

Sampling and surveys of various wildlife populations for estimates of abundance, structure, and condition.

SCIENTIFIC AND TECHNICAL WORKS

Note: Names of undergraduate co-authors underlined.

RESEARCH INTERESTS

Ecology and conservation of headwater ecosystems—questions focused on population status (e.g., occupancy) and dynamics (e.g., survival), and assemblage responses to disturbance and restoration.

Optimization of monitoring and sampling protocols. For example, how many samples are needed to detect an elusive species, or how many sample to conclude a species is no longer present?

Development of planning support tools for natural resource management to structure actions and research activities.

SKILLS

Computer

Programming: R, Git, SQL, T_EX, markdown, R Markdown, HTML, CSS (Novice), JavaScript (Novice), Python (Novice), VBA (Novice)

Applications: RStudio, Microsoft Office Suite, Mendeley Desktop, G Suite, Shiny, GitHub Desktop, Atom, GIS in R, Quantum GIS, ArcGIS, HOBOWare PRO, Blackboard, Canvas, AUTHOREA, GRASS (Novice), JMP (Novice), PAST (Novice), InVest (Novice)

Platforms: Microsoft Windows, Android, macOS (Novice), Linux (Novice)

Field

Sampling and labor: Backpack electrofishing, seine netting, gillnetting, trapping (aquatic), visual encounter surveys, coverboard traps, call surveys, passive integrated transponder tagging and equipment, camera trap arrays, standardized stream habitat survey, soil, air, and water sampling (stationary and handheld), environmental DNA sampling, non-lethal tissue sampling, point count songbird survey, bird banding, internal organ biopsy, prescribed burning, establishment of wildlife supplementary fields, construction of forest roads, boundary survey, timber cruise and stand measurements

Laboratory: Flow injection analysis (nutrient concentrations in water samples), water chemistry testing, suspended sediment measurement, polymerase chain reaction, otolith aging

Analysis: Experimental and sampling design (factorial, regressive, occupancy and abundance), univariate modeling (linear, generalized linear, generalized additive, hierarchical linear and generalized, spatial regression, time series analyses, classical and Bayesian inference), multivariate modeling (unconstrained ordination, cluster analyses, constrained ordination, discriminate analyses, gradient analyses, multivariate factorial and regressive, geometric morphometrics), spatial analysis (cost conditional Latin hypercube sampling, species distribution modeling, hydrological modeling, spatial autocorrelation, interpolation), machine learning (association rules, hierarchical clustering, classification and regression trees, ensemble models, text mining), decision analysis and

optimization (linear programming, analytic hierarchy process, decision trees, Bayesian decision networks)

Heavy equipment: Four-wheel drive vehicle (with trailer), all-terrain vehicle (with spraying and planting implements), utility side by side, utility tractor (with spraying, mowing, and planting equipment), backhoe tractor, bulldozer, grader

ACCOLADES

Awards and scholarships

1. SDAFS Student Lodging Award [\$725] 2020
2. SFC Boschung Student Travel Award [\$100] 2019
3. AAAS/Science Program for Excellence in Science Recipient [Sponsored membership] 2019
4. Fernando Vizcarra Memorial Photo Contest (Fall) [3rd Place]
"Sunrise Mesa Arch, Canyonlands National Park, Utah" 2018
5. SFC Boschung Student Travel Award [\$100] 2018
6. Graduate Research Assistantship, Mississippi State University [\$25,000 yr⁻¹] 2018-Current
7. Graduate Teaching Assistantship, University of Mississippi [\$18,000 yr⁻¹] 2014-2016
8. NUCOR Steel Foundation Scholarship [\$40,000] 2008-2012
9. Pate—Sterling Memorial Scholarship [\$10,000] 2008-2009
10. Alabama Youth Leadership Conference 2007
11. Alabama Boys' State 2007

Grants

1. Miranda, L.E., M.E. Colvin and C.A. Aldridge. (2019). *FRASps: a planning support tool for inland fisheries management*. Mississippi Department of Wildlife Fisheries and Parks. [\$109,526]

TEACHING EXPERIENCE

Adjunct eLearning Biology Instructor

2018-Current

eLearning Science, Northwest Mississippi Community College

Supervisor: Angel Nickens

Instruction of elementary biological science and laboratory simulations; proctoring of examinations. (21 hrs taught; "Meets Expectations" on performance review)

Graduate Teaching Assistant

2014-2016

Dept. of Biology, University of Mississippi

Supervisor: Denis C. Goulet

Instruction of elementary biological, human anatomy and physiology, and ecological science laboratories; proctoring of examinations. (22 hrs taught; 3.89/4.00 from student reviews)

Guest Lecturer

Dept. of Wildlife Fisheries and Aquaculture, Mississippi State University

Instructor: Scott A. Rush

Course: Herpetology

2020-02-28

"Location, Location, Location"

Dept. of Wildlife Fisheries and Aquaculture, Mississippi State University

Instructor: Michael E. Colvin

Course: Fisheries Management

2019-10-02

"Management Plans"

Dept. of Biology, University of Mississippi

Instructor: Stephen T. Threlkeld

Course: Ecology

2015-09-28

"Population Dynamics" based on material from M.C. Molles Jr., "Ecology: Concepts and Applications"

Laboratory Teaching Assistant

2011-2012

Alabama Math, Science, and Tech. Initiative: Science in Motion

Supervisor: Kim Pounders

Prototyped and maintained laboratory equipment and demonstration supplies. Assisted with demonstrations and instruction to secondary school teachers.

ACADEMIC AND COMMUNITY SERVICE

2020 Nabi Award Selection Committee

Member
